

## 2017 CSM LEGO ROBOTICS CHAMPIONSHIP – PROJECT MODIFICATION

Instead of presenting projects in an interview session, teams must prepare a video or narrated slide show presentation and post it to youtube. The requirements and details are as follows:

- The presentation should be between 2.5 – 3.5 minutes in length, including up to 30 seconds of credits.
- An opening title should display at the beginning. The title should list your School/Organization name and Team Name.
- All members of the team must participate in some way, either on or off camera, or both. The credits should list all team members and the roles that they played in the preparation of the presentation.
- Professional-quality video and audio editing is not expected. However, teams should strive to produce a quality presentation appropriate to their grade level (elementary or middle school). See the "Project" page in the [Combined Rubrics](#) for judging criteria.

Teams should email the URL for their project to the following email address by **MARCH 25, 2017**. Please follow the following instructions with your email:

- Send your URL to this email address: **robotics@csm.edu**
- In the Subject line, type your **School/Organization Name & Team Name**.
- Copy/paste the **URL** for your youtube video/slideshow presentation in the body of the message.
- **Alternate method: Email a link to an online file storage service such as Dropbox or Google Drive. The email should go to: [robotics@csm.edu](mailto:robotics@csm.edu) List the school and team name in the email subject header.**
- You will receive an email confirmation of the receipt of your email message. If you do not receive an email confirmation within a week, email either Ronda Jacobs at [rondaj@csm.edu](mailto:rondaj@csm.edu) or Bernice Brezina at [berniceb@csm.edu](mailto:berniceb@csm.edu).
